

## IT Fundamentals Guided Notes (ANSWER KEY)

# Lesson 2.7.1 - Network Communication Basics

1. What is a LAN?

A local area network is a network that covers a small area, with all the computers connected via cables, wireless signals, or a combination of the two

2. What is a WAN?

A wide area network is a network that covers a large area, typically composed of multiple LANs connected together

3. What is a WLAN?

WLAN stands for wireless local area network, a local area network (LAN) where all the devices are connected wirelessly
